Forever!?

I know how it happened too! Zealand made a post on an alt about how their main account was banned for whatever reason, and that they hoped it was a glitch so it would go away soon!

Really though, a PERMABAN for THAT!

That's insane...
If it was a glitch, then they probably should have emailed the help center first. Making an alt. account and then posting about yourself being banned kind of screams to the mods "I'm evading a ban". But I don't think that called for a permaban.
Maybe a warning? "It's not okay to evade ban"
but a *permaban*???

Well Zealand *did* evade the ban
Which is definitely against the rules
So maybe the ban was a bit harsh but fair enough

I SAW the post. That wasn't evading a ban or anything. I don't think anyone replied even, so it wasn't like people were ralying against the mods like other "__ got banned threads."

Zealand was just saying they got banned on their main account. No rage in the post at all.

Evading a ban means accessing the forums when any one of your accounts are under a ban.

It doesn't matter if there's rage or not, it's still evading/avoiding a ban on their account.

Maybe it was a quick "Hey, I've been banned, so don't worry if I'm not posting." and then go?

@Ketchup: I didn't see the alt around, so that's probably it.

Also, if thats evading a ban, why can people sometimes say other people got banned, and not get banned themselves 100% of the time? And if they do, its NEVER a permaban. That's too extreme, even for 'evading a ban.'

Does it even say that on the rules? I can't read them on mobile.

@Future but are permabans always permanent? Or is that just what you guys call it?
In any case, she obviously broke the rules in some way or the mods wouldn't have done anything

Sorry Corey, but that's not how it works around here. Mods ban people for nothing all the time.
